REISSUE APPLICATION DECLARATION BY THE INVENTOR	Docket Number (Optional) VN734RI
<p>I hereby declare that:</p> <p>Each inventor's residence, mailing address and citizenship are stated below next to their name.</p> <p>I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number <u>5,594,734</u>, granted <u>January 14, 1997</u>, and for which a reissue patent is sought on the invention entitled <u>Asynchronous Processor Access to a Switch Table in a Network with Isochronous Capability</u>, the specification of which</p> <p><input type="checkbox"/> is attached hereto.</p> <p><input checked="" type="checkbox"/> was filed on <u>January 14, 1999</u> as reissue application number <u>09 / 231,855</u> and was amended on <u>January 11, 2001 and May 24, 2004</u>. (If applicable)</p> <p>I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.</p> <p>I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.</p> <p><input type="checkbox"/> I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.</p> <p>I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)</p> <p><input type="checkbox"/> by reason of a defective specification or drawing.</p> <p><input checked="" type="checkbox"/> by reason of the patentee claiming more or less than he had the right to claim in the patent.</p> <p><input type="checkbox"/> by reason of other errors.</p> <p>At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening: Original claims 1-18 claimed less than the full right to claim in the original application. For example, claim 1 recited register means for receiving update data from said microprocessor during a first time period at a data rate corresponding to said clock and outputting said update data to said updatable table. The term "register means" is narrower than Applicant was entitled to claim. In order to broaden the claims and correct such error, claim 19 recites a memory receiving update data from the processor during a first time period at a data rate corresponding to the clock and outputting the update data to the updatable table, with the term "memory" as used in claim 19 having a different and broader scope than "register means" in claim 1.</p>
